

For the last 3 centuries, German industries are well respected worldwide for the quality, reliability and durability of its products. In 1774, **Johann Birkenstock** took the first steps in the orthopaedic shoes industry; those steps were meant to establish

**Birkenstock  
orthopaedic  
products**

number one in the world, an establishment that goes on until today, run by the **Birkenstock** family.

**Birkenstock** orthopaedic **products** are in Cyprus since 1992 under the management of **Orthof  
uss TR CO LTD.**

The company assembles the Birkenstock insoles under strict quality control of the factory, in cooperation with the best orthopaedics physiotherapists and podiatrists.

Following the exact same method, taking into account any special foot issues, our company does modifications on Birkenstock footwear.

Our products ensure good health for your feet and body.

You can find our **original Birkenstock products** in [any of our stores all over Cyprus](#)
